To Whom It May Concern:

I'm pleased to offer this letter of recommendation on behalf of Marty Kraft and his company Expedite Your Plans. I have known Marty professionally for many years and have had the pleasure of working with him on numerous projects in several different states. I have always found Marty to exhibit a strong sense of professionalism in his work. He is very knowledgeable regarding all aspects of the code. As a retired plans examiner from Clark County, NV., Marty is in a unique position to provide real value to his clients when he reviews their construction documents prior to submission. Marty is very skilled at establishing a dialog with the various building officials so that the plans are moved thru the plan check process efficiently in the least amount of time possible. One of Marty's great strengths is his dedication to each client's unique needs and his eagerness to follow thru on all the details necessary to expedite the approval process. I'm confident the professional services Marty can provide will be a strong asset to any project.

Regards,

David Senninger AIA
